

# Richard Ashcroft - Break The Night With Colour

Tom: C

## Observação:

Na gravação original, onde coloquei o F7, o teclado faz o acorde com uma nona adicional, complicada para o violão. Entre adicionar a nona e colocar o baixo em C, achei o baixo mais importante. Mas, se você preferir utilize o acorde **Fadd9**: xx3213

Sugestão para F7: x33210 (sem pestana)
