## Acordes

You know I got to try Even though my heart is on the line Even if I'm broken on the inside There's nothing I won't do to make it right You know, you know I got to try Even if I'm stopped to every turn Even if I lose and crash and burn I won't quit until your love I've earned You know, you know I got to try Don't need anyone to tell us this is golden Am I can see that there are diamonds in your eyes tonight Don't need anyone to tell us to be open We'll open up, we'll open up our wings and fly Even though our hearts are on the line Even if we're broken on the inside Am There's nothing we won't do to win this fight You know, you know we got to try Even if I'm stopped to every turn Even if I lose and crash and burn We won't quit until your love I've earned You know, you know we got to try
