

Rihanna - Cold Case Love

Tom: Ab

On my roof
 Dark & I'm burning a rose
 I don't need proof
 I'm torn apart & you know
 What you did to me was a crime
 Cold Case Love
 & I let you reach me one more time
 But that's enough

(Fm Cm Ab Eb)

Your love is breaking the law
 But I need a new witness
 So wake me up when it's over
 It don't make any difference
 Will it ever be solved
 Or am I taking the fall
 Truth was there all along
 Tell me how did we miss it

Refrão:

We opened up a
 Cold case love
 And it got the best of us
 And now printed pictures
 And white lines
 Are all that's left

At the scene of a crime
 Of a cold case love
 Oh, oh, oh

Should've investigated
 But love blinded eyes
 Couldn't see, no
 And then I tried to cage it
 But your love ain't the kind
 That you can keep

Release me now cause
 I did my time
 Of this cold case love
 My heart's no longer cold
 And confined
 I've had enough
 Oh, oh, oh

We lost our way
 Took this too far
 Now I'll never find
 The pieces of my heart
 We've lost enough
 Looking for a truth
 That was here all along
