

Riley Clemmons - Keep On Hoping

tom:

F

[Primeira Parte]

The weight of the world is getting heavier now
 Feels like it's far too much to carry around
 And each and every little time that you fall starts
 Looking like the end of it all

[Segunda Parte]

Somewhere hidden in the noise there's a truth
 Someone to believe and hang onto
 In each and every little word that you hear
 I pray that one thing would be so clear

[Pré-Refrão]

With all those voices in your head
 Just don't, don't ever forget
 That God's still good and He's still got it all in control

Oh

[Refrão]

Come on and keep on hoping when the days get dark
 Keep on singing, don't you ever lose heart
 Lift your eyes, the One who gave you life will give you
 Strength to keep on going, so keep on hoping

[Terceira Parte]

What if the miracle's a moment away?
 What if the morning's just about to break
 And all the innocence you thought that you lost
 Was there inside of you all along

[Refrão]

Come on and keep on hoping when the days get dark
 Keep on singing, don't you ever lose heart
 Lift your eyes, the One who gave you life will give you

Bb Strength to keep on going, so keep on hoping

Come on and keep on hoping

(Keep on hoping)

You gotta keep on hoping

Oh

[Ponte]

There's hope for a better tomorrow

There's hope for joy over sorrow

'Cause God's still good and He's still got it all in control,
 oh

There's hope for a world that can change

There's hope for love over hate

'Cause God's still good and He's still got it all in control

Oh, oh

Oh, yeah

[Refrão]

Come on and keep on hoping when the days get dark

Keep on singing, don't you ever lose heart

Lift your eyes, the One who gave you life will give you

Strength to keep on going, so keep on hoping

Come on and keep on hoping

And know that still His promise will never be broken

Come on and keep on hoping like a soul set free

In every moment, every breath you breathe

Lift your eyes, you're gonna be alright

You've got the strength to keep on going

So keep on hoping

Come on keep on

Keep on hoping

Keep on hoping
