

Ringo Starr - Christmas Eve

tom:

Intro: D G D G

[Primeira Parte]

It's Christmas and you're not here
 The snow is falling down, like my tears
 I see your presents by the tree
 I can't believe you're not with me
 On Christmas, Christmas eve

[Segunda Parte]

It's Christmas with stars above
 How many times has it been said
 A time for love
 And underneath the mistletoe
 I'm standing here all alone
 On Christmas, Christmas eve

[Ponte]

I hear your voice
 I see your smile
 You were my Christmas song
 But now you're gone, now you're gone

[Terceira Parte]

It's Christmas, it seems so long
 The lights are all around the tree
 But not turned on
 I saw your footprints in the snow
 I never thought you'd really go
 On Christmas, Christmas eve

It's Christmas
 It's Christmas eve
