

Rise Against - Hero Of War

```
Tom: F
                                                                We beat him with guns
                                                                And batons not just once
                                    Afinação: Eb Ab Db Gb Bb
                                                                But again and again
He said "Son, have you seen the world?
                                                                A hero of war
                     Bb
Well, what would you say if I said that you could?
                                                                Yeah that's what I'll be
               Bb
Just carry this gun and you'll even get paid."
                                                                And when I come home
I said "That sounds pretty good."
                                                                They'll be damn proud of me
                                                                I'll carry this flag
Black leather boots
                                                                To the grave if I must
Spit-shined so bright
                                                                'Cause it's a flag that I love
They cut off my hair but it looked alright
                                                                And a flag that I trust
We marched and we sang
We all became friends
                                                                She walked through bullets and haze
As we learned how to fight
                                                                I asked her to stop
                                                                I begged her to stay
A hero of war
                                                                But she pressed on
Yeah that's what I'll be
                                                                So I lifted my gun
And when I come home
                                                                And I fired away
They'll be damn proud of me
                                                                Riff:
I'll carry this flag
To the grave if I must
                                                                And the shells jumped through the smoke
'Cause it's a flag that I love
                                                                And into the sand
And a flag that I trust
                                                                That the blood now had soaked
                                                                         Bh
                                                                She collapsed with a flag in her hand
I kicked in the door
                                                                A flag white as snow
I yelled my commands
                                                                A hero of war
The children, they cried
But I got my man
                                                                Is that what they see
We took him away
                                                                Just medals and scars
A bag over his face
                                                                So damn proud of me
From his family and his friends
                                                                And I brought home that flag
                                                                Now it gathers dust
They took off his clothes
                                                                But it's a flag that I love
They pissed in his hands
                                                                It's the only flag I trust
I told them to stop
                                                                He said, "Son, have you seen the world?
But then I joined in
                                                                Well what would you say, if I said that you could?"
