

## **Rise Against - Satellite**

```
Tom: Ab
                                                                Could face the world again
                                                                So I offered up a plan:
                                             G )
 (com acordes na forma de
Capostraste na 1ª casa
Intro: Em G D Am
      Em G D C
                                                                We'll sneak out
Verso 1:
                                                                While they sleep
                                                                And sail off in the night
You can't feel the heat until you hold your hand over the
                                                                We'll come clean
                                                                         D
You have to cross the line just to remember where it lays
                                                                And start over
                                                                The rest of our lives
You won't know your worth now son until you take a hit
                       G
                                                                          G
And you won't find the beat until you lose yourself in it
                                                                When we're gone
Refrão:
                                                                We'll stay gone
                                                                       Am
                                                                Out of sight
That's why we won't back down we won't run and hide
                                                                       Fm
           D
                                                                Out of mind
Yeah, cause these are the things that we can't deny
                                                                     G
          Em
                           G
                                                                It's not too late
\hbox{I'm\_passing over you like a satellite}
                                                                          Am
                                                                We have the rest of our lives
So catch me if I fall
                                                                We'll sneak out
                                                                While they sleep
That's why we stick to your game plans and party lives
                                                                And sail off in the night
                                                                We'll come clean
                                Am
But at night we're conspiring by candlelight
                                                                And start over
        Em
                         G
                                                                The rest of our lives
We are the orphans of the american dreams
                                                                When we're gone
                                                                We'll stay gone
                      Am
Oh shine your light on me
                                                                Out of sight
                                                                Out of mind
Verso 2:
                                                                It's not too late
                                                                          Am
                   G
                                  D
                                                                We have the rest of our lives
You can't fill your cup, until you empty all it has
You can't understand what lays ahead
                                                                The rest of our lives
If you don't understand the past
You'll never learn to fly now
Until you're standing at the cliff
                                                                Refrão
And you can't truly love until you've given up on it
                                                                Because we won't back down we won't run and hide
                                                                Yeah, cause these are the things that we can't deny
                                                                I'm passing over you like a satellite
So catch me if i fall
That's why we won't back down we won't run and hide
Yeah, cause these are the things that we can't deny
                                                                That's why we stick to your game plans and party lives
I'm passing over you like a satellite So catch me if i fall
                                                                But at night we're conspiring by candlelight
                                                                We are the orphans of the american dreams
That's why we stick to your game plans and party lives
                                                                Oh shine your light on me
But at night we're conspiring by candlelight
We are the orphans of the american dreams
Oh shine your light on me
                                                                We won't back down we won't run and hide
Ponte:
                                                                Yeah, cause these are the things that we can't deny
                                                                            Fm
                                                                I'm passing over you like a satellite
                        Fm
   She told me that she never
                                                                Cause' these are the things that we can't deny now
     G
                      C
                                                                This is a life that you can't deny us now
```
