

Rita Ora - Anywhere

Tom: D

Bm
Time flies by when the night is young
Bm A
Daylight shines on an unexposed location, location
Bm
Bloodshot eyes lookin' for the sun
Bm A
Paradise, we live it, and we call it a vacation, vacation

Bm
You're painting me a dream that I
A
Wouldn't belong in, wouldn't belong in

Em A
Over the hills and far away
D A
A million miles from L.A.
Bm
Just anywhere away with you
Em A
I know we've got to get away
D
Someplace where no one knows our name
G
We'll find the start of something new
Em A
Just take me anywhere, take me anywhere
D Bm
Anywhere away with you
Em A
Just take me anywhere, take me anywhere
D G
Anywhere away with you

Em
Fun, little less fun
A
Little less, over, over, over, over, me
Em
Oh, fun, little less fun
A
Little less, over, over, over, over, me
D Bm

Bm
Truth comes out when we're blacking out
A
Looking for connection in a crowd of empty faces, empty faces
Bm
Your secrets are the only thing I'm craving now
The good, and the bad, and the end
A
'Cause I can take it, I can take it

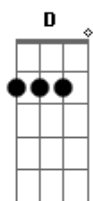

Bm
You're painting me a dream that I.
A
Wouldn't belong in, wouldn't belong in

Em A

Over the hills and far away
D
A million miles from L.A.

Take me anywhere

Oh, anywhere

Anywhere away with you
Take me anywhere
