

Rival Sons - All That I Want

```
Tom: G
Intro: G
If i could make you love me
I would not want you to
It's you that i want
And not what i want from you
If i could help you see me
The way that i see you
                                 {\sf Em}
Hope you like what you see
And i hope that it pleases you
I don't care what it takes
From me to
                 give to
                                           G7
I'll do anything that you
You're all that i want
           Cm
You're all that i want
If you could feel my heartache
Each time you walk away
You would never leave
And i would never ask you to stay
```
