

# Riverdales - Crash Of The Moons

Tom: E  
Intro: E

Oh baby, oh baby, oh baby  
 I wish I could go back, I wish I could go back  
 Oh baby, oh baby, oh baby  
 I could be better than that, so much better than that  
 What you don't know isn't gonna hurt you  
 We'll be long gone soon, from the crash of the moons  
 And I just wanna tell you that I love you  
 We'll be long gone soon, from the crash of the moons  
 Oh baby, oh baby, oh baby  
 This will be our last night, I wanna make it just right

Oh baby, oh baby, oh baby  
 That kaleidoscope sky, shining on you and I  
 What you don't know isn't gonna hurt you  
 We'll be long gone soon, from the crash of the moons  
 And I just wanna tell you that I love you  
 We'll be long gone soon, from the crash of the moons  
 What you don't know isn't gonna hurt you  
 We'll be long gone soon, from the crash of the moons  
 And I just wanna tell you that I love you  
 We'll be long gone soon, from the crash of the moons  
 The crash of the moons
