 Before the Earth was made You were living

 Your very word spoke life into being

 You even give the breath we are breathing

You are exalted to the highest place

 You have the name above all other names

Stepping down into the world you made
 The uncreated God in a human frame
 Creator dwelling with creation
 You made yourself of no reputation

And you made yourself nothing for us
 And you gave up your life for the least of men
 You entered the gates of death
 And rose with the keys in your hand

(Chorus)

Middle 8:

Gbm E A
 There is no one like You
 Gbm E A
 There is none besides You
