Riverside - River Down Below

Tom: G

```
             Dbm
I?d like to tell you
       Em
What I dream about
Dbm
I?d like to say
          Em
How much I miss you
But
      Bm
I say sorry
   Gb
So come my darling
Bm      Gb
Come to me
    Bm
I?m sorry
    Gb             Em
I?m dying on the tree
Dbm
I?d like to tell you
         Em
That it?s not too late
Dbm
I?d like to say
          Em
That I won with myself
But
      Bm
I say sorry
   Gb
So come my darling
Bm      Gb
Come to me
    Bm
I?m sorry
    Gb            Em
I?m dying on the tree
Bm
Sorry
   Gb
So come my darling
Bm      Gb
Come to me
    Bm
I?m sorry
                 Em
I?m dying on the tree
Gb
With the world beneath my feet

( Bm  A2 )

Bm                        A2
So you found me after all
Bm
Pile of rocks
               A2
And two nailed boards

G        Em
Linger beside me
                  D
You?re all I have left
                    A    G
Tell me the story of your life
                 Em
There?s so much that
                  D
I have got to find out
                    A       G
Until the next darkness arrives
               Em               D
I do not have too many requirements
Only one wish
        A    G
Before you go
                   Em                D
And before I crumble back into the dust
                    A     G
Take me to the river down below
                   Bm
Take me to the river down below

( Bm A2 )

Bm
Stay
Sit down
             A2
And get some rest
Bm                          A2
Since you came across my place

G        Em
Linger beside me
                  D
You?re all I have left
                    A    G
Tell me the story of your life
                 Em
There?s so much that
                  D
I have got to find out
                    A      G
Until the next darkness arrives
               Em               D
I do not have too many requirements
Only one wish
        A    G
Before you go
                   Em                D
And before I crumble back into the dust
                    A    G
Take me to the river down below
                   Bm
Take me to the river down below

[Solo] Bm  A2
       G  Em  Bm  A2
```
