

# Robbie Williams - Forbidden Road

tom:

Intro: D A Bm A G A D

[Refrão]

I walked along a forbidden road  
 I had to know, where does it go  
 Like birds that fly into the sun  
 I had to run, I'm not the only one

[Primeira Parte]

Why do you look at me that way  
 I'm not a problem that need solving  
 The truth is still evolving  
 Life is the choices that we make  
 We're the masters of our own faith  
 The painter and the paint

[Pré-Refrão]

You need to lose your mind  
 To get back to the light  
 Sometimes

[Refrão]

I walked along a forbidden road  
 I had to know, where does it go  
 Like birds that fly into the sun  
 I had to run, I'm not the only one

[Segunda Parte]

Maybe I'm never satisfied  
 I made a lot of poor decisions

Yeah I've made some revisions  
 And I'm still tryna get it right  
 I'm a living contradiction  
 The cure and the affliction  
 [Pré-Refrão]  
 You need to lose your mind  
 To get back to the light  
 Sometimes

[Refrão]

I walked along a forbidden road  
 I had to know, where does it go  
 Like birds that fly into the sun  
 I had to run, I'm not the only one

[Ponte]

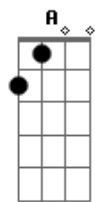

So do you love me now  
 Or did I let you down?  
 You said you wanted all my secrets  
 So I showed you all my demons  
 Do you love me now?

[Refrão]

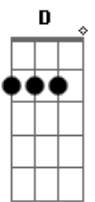

I walked along a forbidden road  
 I had to know, where does it go  
 Like birds that fly into the sun  
 I had to run, I'm not the only one

[Final] D A Bm A G A D
