

Robbie Williams - Random Acts Of Kindness

Tom: **G**
Intro: (Repeat for all verses)

For those about to die
We salute you
For those of about to cry
We love you
For those of us who live in fear
Of Happy Christmas and new year
I raise a toast to you

E
And if it hurts
C
To be so blind

Why don't you try
G **D**
Being kind

They've decided to become
A little more Pro-active
Creep upon you while you sleep
And make you less attractive

E **C**
Born without a spine

Why don't you try
G **D**
Being kind

For those out drinking at their mother's way
You'll find a way to soldier on
For those whose love evaporates

I pray you'll find where you belong

Bm **G**
Oh, the words I have repressed

Are coming out today I guess

It is justice not respect I'm after

And that just leaves contempt

For you all

Em
Oh oh oh

Yeah yeah

C **A**
Yeah

I am just a simple man
With simple expectations
Deep regrets
They're seldom met
God speed my generation

E **C**
And with Crowley on my mind

G **D**
I should try being kind

For those about to die
We salute you
For those of about to cry
We love you
For those about to die
We salute you
For those of about to cry
We love you
