Robin Schulz - OK feat. James Blunt

Tom: Bb
Intro: Gm Eb Bb F

Verse 1:
```
        Gm
I really need you
         Eb
I really need your love right now
          Bb
I'm fading fast
         F
Not gonna last
          Gm
I'm really stupid
           Eb
I'm burning up, I'm going down
          Bb
I win it back
       F
Don't even ask
```

Pre-Chorus:
```
         Eb
When I found myself in the middle, in the middle, in the
middle
          Gm                                    F
Could you love me more, just a little, just a little
        Eb
Overcomplicate when it's simple, when it's simple, when it's
simple
          Gm                F
Would you love me more, just a little
```

Chorus:
```
        Gm
So tell me now
         Eb
When every star falls from the sky
        Bb                          F
And every last heart in the world breaks
        Gm
Oh hold me now
         Eb
When every ship is going down
          Bb                      F
I don't feel nothing when I hear you say
```

[Post-Chorus]
```
          Gm Eb
It's gonna be OK
       Bb      Gm Eb
It's gonna be OK
        Bb      Gm Eb
It's gonna be OK
        Bb      Gm Eb
It's gonna be OK

I only think, that's all it is
                 Gm
The way you love me
```

```
                 Eb
The way you love me 'til the end

Could you love me more, just a little, just a little
        Eb
Overcomplicate when it's simple, when it's simple, when it's
simple
          Gm                F
Would you love me more, just a little
```
