**Bm**

**A** No, you're not gonna get what you need **G**

**Bm** Baby, I have what you want

**A** Come get your honey

**G** No, you're not gonna get what you need

**Bm** But baby, I have what you want

**A** Come get your honey

I got your honey, baby

**G** Every colour and every taste  
Every breath that whispers your name

**Bm** It's like emeralds on the pavement

**A** Every colour and every taste

Every breath that whispers your name

It's like emeralds on the pavement

I got your honey, baby

**G** At the heart of some kind of flower

**Bm** Stuck in glitter, strands of saliva

**A** Won't you get me right where the hurt is?

**A** At the heart of some kind of flower

Stuck in glitter, strands of saliva

Won't you get me right where the hurt is?

**G** And the waves come in and they're golden

**Bm** But down in the deep the honey is sweeter **A**

(Ooh, it is sweeter, baby)

**G** And the sun sets on the water

**Bm** But down in the deep the current is stronger **A**

Suck it up inside like a treasure

Let the brighter place be your passion
