Rogue Valley - The Wolves & The Ravens

Tom: C
Intro: C F

```
      C
In the morning by the sea
     Am                  C
As the fog clears from the sand
       Am           C
I have no money in my hand
        F              C
I have no home, I have no land

        C
But it doesn?t trouble me
     Am              C
As I lay beside the fire
     Am        C
I am easy to inspire
            F       C
There is little I require

      C                     G
I wasn?t yours and you weren?t mine
          Dm               F
Though I?ve wished from time to time
    C          G
We had found a common ground
              Dm           Am
Your voice was such a welcome sound

       C
How the emptiness would fill
           Am            C
With the waves and with your song
        Am             C
People find where they belong
                           F
Or keep on

( C  F )
```
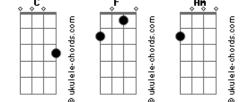

```
                 C
Through the never-ending maze
           Am              C
Where the way is seldom clear
          Am              C
There is no map or compass near
            F          C
I drive a ship I cannot steer

                  C
Through the bleak and early morn
           Am          C
Where a stronger will is sworn
          Am              C
Where the moments move so slow
            F            C
And seem to never let you go

            C              G
When my hands are old and ache
         Dm            F
And my memory flickers dim
           C              G
And my bones don?t hold my skin
        Dm             Am
There?s no place I haven?t been

        C
I recall the days were few
         Am          C
That is all that I can do
         Am              C
Feel the carvings in the tree
            F       C            F
That gives shade for you and me

( C  F )
( C  Am  C )
( Am  C  F  C )
( F  C  C  F )
```
