Rosa de Saron - Open Your Eyes

```
                          tom:
              G

          G               C
All this feels strange and untrue
       Em                  C        G
And I won't waste a minute without you
                  C
I want so much to open your eyes
          Em                  C  G
´Cause I need you to look into mine

                   C             Em
Tell me that you'll open your eyes
                   C             G
Tell me that you'll open your eyes
                   C             Em
Tell me that you'll open your eyes
                   C             G
Tell me that you'll open your eyes

                    C
Get up, get out, get away from these liars
           Em                        C   G
´Cause they don't get your soul or your fire
                     C
Take my hand, knot your fingers through mine
          Em                              C       G
And we'll walk from this dark room for the last time
                  C
Every minute from this minute now
```

```
       Em                  C   G
We can do what we like anywhere
                  C
I want so much to open your eyes
          Em                   C  G
´Cause I need you to look into mine
                        C            Em
Tell me that you'll open your eyes
                        C            G
Tell me that you'll open your eyes
                        C            Em
Tell me that you'll open your eyes
                        C            G
Tell me that you'll open your eyes
                        C            Em
Tell me that you'll open your eyes
                        C            G
Tell me that you'll open your eyes
                        C            Em
Tell me that you'll open your eyes
                        C            G
Tell me that you'll open your eyes
C         Em         C          G
Ô ôôô...   Ô ôôô...  Ô ôôô...    Ô ôôô
C         Em        C          G
Ô ôôô...   Ô ôôô...  Ô ôôô...    Ô

                  C
All this feels strange and untrue
       Em                    C
And I won't waste a minute without you
```
