

Roy Orbison - Let's Make A Memory

Tom: G

Come a little closer don't you tell me "no sir"
 Let's make a memory
 Come on and give me your kiss now what are you gonna miss now
 Let's make a memory, a memory
 Let's make a memory
 Make a memory

Yes let's make a memory together
 One that will last and last forever

Sweet baby Baby hold me tight then Squeeze with all your might then
 Let's make a memory
 Come on now Just have a little fun for What do you think we're young for?
 Let's make a memory
 Make a memory

Yes let's make a memory together
 One that will last and last forever
 Come on now Let yourself let go now Don't let love grow cold now
 Let's make a memory

Sweet baby Forget about the past now We've got a love that'll last for
 Now and forever we will be
 Making memories...
