

Roy Orbison - Only With You

Tom: C

I can paint a sunset across the sky of blue

Only with you, only with you

I can be a master at anything I do

Only with you, only with you

I found the end of the rainbow my golden treasure too
Only with you, Only with you

The sun looks good in the morning and I love the night time too
Only with you, Only with you

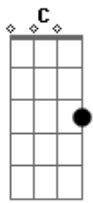

All my world would end dear my rising star would fall

If ever I should lose you I would be nothing at all

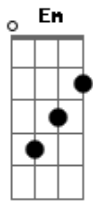

All my world is heaven I'll be happy my whole life through

Only with you, only with you
