

Roy Orbison - With the bug

Tom: D

Well down through the ages woman's had a time
 Tryin' to get her man to walk the chalk line
 To keep him on a string with a kiss and a hug
 But there's never been a man who wasn't bitten by the bug

Chorus:

Yeah rockin' and rollin' with the bug
 Rollin' and strollin' with the bug
 Itchin' and twitchin' singin' and swingin'
 Yeah with the bug

Well Delilah loved Sammy, but he wouldnt stay home
 Always runnin' and leavin' Dee home
 She set out to find Sammy late one night

Found him down at the sand dune rockin' it right

Chorus

Well Helen of Troy a cool smile on her face
 She sported the face that launched a thousand ships
 But she couldn't control the wiggle in her hips
 She lost her fame and fortune, just one flip

Chorus

Well now Josephine, She had trouble from the start
 She couldn't keep her eye on little Bonoparte
 Every single time that Josie looked around
 She found her Bony runnin' round and round

Chorus

Well now, are modern times the same as history
 Even in the twentieth century
 And our future now well it's plain to see
 If we don't look out, the bug will get you and me

Chorus

with the bug
 with the bug...

Acordes
