

Royal & the Serpent - One Nation Underdogs

tom:
 Capostraste na 2ª casa

I deserve the right to love my life
 To change my mind, to go outside
 To stay alive, to be in public and survive
 And I should get to feel like I'm a human
 Just as real as politicians, christian women
 Straight white men and all their friends
 Oh, say, can you see
 There's mud in the water
 From sea to shining sea
 Mothers and fathers
 We're the kids that you loved and lost
 We're the one, we're the one nation underdogs
 We're the dreams that you all forgot
 We're the one, we're the one nation underdogs
 And way down deep, you know it's true
 There's more of us and less of you
 We're the future where you fell off
 We're the one, we're the one nation underdogs
 I am not afraid to be myself
 To ask for help
 To walk through hell and back for you or me or anybody else
 And I know I'm not perfect

But I'll keep working
 I'll keep watering the garden
 No, I'm not alone, do you see what we've started?
 Oh, say, can you see
 There's mud in the water
 May God have grace on me
 Mothers and fathers
 We're the kids that you loved and lost
 We're the one, we're the one nation underdogs
 We're the dreams that you all forgot
 We're the one, we're the one nation underdogs
 And way down deep, you know it's true
 There's more of us and less of you
 We're the future where you fell off
 We're the one, we're the one nation underdogs
 We're the kids that you loved and lost
 We're the one, we're the one nation underdogs
 We're the kids that you loved and lost
 We're the one, we're the one nation underdogs
 The overworked
 The broken youth
 Needs more of us and less of you
 We're the future where you fellh of
 We're the one, we're the one nation underdogs
