

Ruel - Painkiller

tom:

Am

C

E

You're my painkiller
 When my brain gets bitter
 You keep me close
 You keep me close

C

I got front row seats
 For the park side living
 Feel like the one

But I'm one in a billion
 Teenage cynical
 But I donât really know

C

Oh, what's the point of living

If my heart gets broken
 Drivin' 'long the road waiting for head on collision
 Springtime funeral
 I miss you but I'd rather be alone

To keep me from

C

Heartbreaks, headaches
 The doctor says I'm diagnosed

E

with shit days, mistakes
 But I'll be fine
 But I'll be fine

C

E

Cause you're my painkiller
 When my brain gets bitter

You keep me close

Fm

When Iâm miserable

C

E

And it takes forever
 To let my brain get better

You keep me close

Fm

You keep me close

C

Window seats

As the plane starts leaving

E

Miss those streets where my knees were bleeding

Homesick veteran

Lefts my bed again

Now Iâm looking for

C

Heartbreaks, headaches

E

The doctor says Iâm diagnosed

with shit days, mistakes

But I'll be fine

But I'll be fine

C

E

Cause you're my painkiller

When my brain gets bitter

You keep me close

Fm

When Iâm miserable

C

E

And it takes forever

To let my brain get better

You keep me close

Fm

You keep me close

Oh ohoh ohoh

Oh ohoh ohoh

Oh ohoh ohoh

Oh ohoh ohoh ohhh

C

E

Cause you're my painkiller

When my brain gets bitter

You keep me close

Fm

When Iâm miserable

And it takes forever

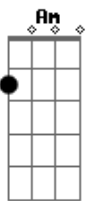

To let my brain get better
