Email is Tail write if there are errors.  
The chords are not in time with the song so you may want to hear it out.  
The chords are played a few times.

These are the the chords played when the band comes in. Played w/ a jazzy feel.

For the next section, i don't know what it's called, you'll need to listen to the song the timing, you'll hear it. It's strummed w/ chilled grace.

Hope this helps.
