

# Sabrina Carpenter - Prfct

tom:

Hey, hey, hey, hey  
Oh oh oh oh

Hey, hey, hey, hey  
Oh oh oh oh

You can get real close, talking, you're talking now  
Underneath our clothes, pretend that we know it all  
Shut off the lights, just to hide in the dark, dark, dark  
Think that I know you the farther you are

Like, A-B-C-D, that could work so perfectly  
If perfect was the kinda thing that worked for me  
But I wanna feel nervous, just a little bit off the edge  
Even if I know that I will end up in a mess like

Aye, aye, aye, aye, aye, it won't be perfect  
But I know oh, oh, oh, oh, it could be worth it  
And for all of the nights I left tears running down my face,  
messing up my mascara

If perfect was the kinda thing that worked for me  
But I wanna feel nervous, just a little bit off the edge  
Even if I know that I will end up in a mess like

Aye, aye, aye, aye, aye, it won't be perfect  
But I know oh, oh, oh, oh, it could be worth it  
And for all of the nights I left tears running down my face,  
messing up my mascara

That's what we need (that's what we need)  
That's what we need (that's what we need)  
Baby, do you think that you could give it to me?  
That's what we need  
That's what we need  
Baby, do you think that you could give it to me?

Aye, aye, aye, aye, aye, it won't be perfect  
But I know oh, oh, oh, oh, it could be worth it  
And for all of the nights I left tears running down my face,  
messing up my mascara

See right through the fiction, and all of this fakery  
Just give me some friction, let me see what nobody sees  
You don't think that I can handle the truth?  
Baby I'm over just playing it cool, oh

Like, A-B-C-D, that could work so perfectly

That's what we need (that's what we need)  
That's what we need (that's what we need)  
Baby, do you think that you could give it to me?  
That's what we need  
That's what we need

[Final] Am
