

# Sabrina Carpenter - Stand Out From How Build a Better Boy

Tom: G  
Intro: G D Em C

G  
Don't sweat all the little things  
D  
Just keep your eye on the bigger things  
Em  
'Cause if you look a little closer  
C  
You're gonna get a bigger picture  
G  
Your heart beats like a marching drum  
D  
It's telling you to keep on walking on  
And you gotta find a little fire  
Shine your light a little brighter  
You and I were meant to fire like rockets in the night

Keep your head up  
Shoot the clouds down  
Throw it all in  
Break your own ground  
And if you're gonna make a mess, make it loud  
And if you're gonna take a stand, stand out

Life is a game  
We can go play  
Shake up the rules  
Don't be afraid  
And if you're gonna make a mess, make it loud  
And if you're gonna take a stand, stand out

Stand out  
Oh, oh, oh  
Stand out  
Oh, oh, oh  
Stand out  
Oh, oh, oh  
Stand out  
Oh, oh, oh  
Stand out

Jump on the roller coaster  
Up up, now we're getting closer  
We can be the silver lining  
For every treasure that's hiding

We're coming on like the speed of light, yeah  
Boom boom, it's like dynamite  
We're gonna start a revolution  
Don't stop, keep moving

You and I were meant to fire like rockets in the night

Keep your head up  
Shoot the clouds down  
Throw it all in  
Break your own ground  
And if you're gonna make a mess, make it loud  
And if you're gonna take a stand, stand out

Life is a game  
We can go play  
Shake up the rules  
Don't be afraid  
And if you're gonna make a mess, make it loud  
And if you're gonna take a stand, stand out

Stand out  
Oh, oh, oh  
Stand out  
Oh, oh, oh  
Stand out  
Oh, oh, oh  
Stand out  
Oh, oh, oh

Stand out

Be the voice  
Be the cause  
Be the change  
Be yourself  
That's the best you can be

You and I were meant to fire like rockets in the night

Keep your head up  
Shoot the clouds down  
Throw it all in  
Break your own ground  
And if you're gonna make a mess, make it loud  
And if you're gonna take a stand, stand out
