

# Sad Brad Smith - Help Yourself

Tom: E

I know you'll help us When you're  
 Feeling better and we realise  
 That it might not be for a long, long time  
 But we're we leave the wheighth on you  
 We believe in everything that you can do  
 If you could only lay down your mind

I ??want you to try to help yourself  
 Take the time to take apart. Each brick that sits outside your  
 heart  
 And look around you. There's people everywhere  
 No they don't always show. They're just as scared  
 And we'd be more prepared If we pulled on through

I ??want you to try to help yourself  
 Oceans of water underneath our feet  
 Terrible design  
 Dusty rooms you cannot sweep  
 Clouding up your mind

I know you'll help us When you're  
 Feeling better and we realise  
 That it might not be for a long, long time  
 But we, we lend the weight on you  
 We believe in everything that you can do  
 If you could only lay down your mind  
 I ??want you to try to help yourself
