

SAINT JHN - Reflex

tom:

[Primeira Parte]

Picture me balling

Picture me with the fifth of Henny, something foreign

Picture me riding round here with a Benzo

Picture me blunted with the tints on the window

You could see by the looks of it I got the feeling

I told them bitches I'm something they should believe in

I told my mama they can't reach me, hit the ceiling

Baby this is just the beginning, it's preseason

I know that you can tell I got it though

[Ponte]

Gotta go get it that the reflex

I know you can tell the winners by how we flex

I ain't playing with theses niggas ain't no recess

Next time I look around nigga way up, way up, way up, way up

[Refrão]

Only bad bitches round here

I swear it's only bad bitches round here

I mean it's only real niggas round here

You know it's only real niggas round here

[Segunda Parte]

Picture us speeding

Picture me rolling something up to chase the demons

Ah that Cohiba really helped me slow the breathing

You see these niggas round me they all pledge allegiance

I never change for nothing, nigga that's some true shit

I got a mil, you got a mil, that just some crew shit

They trying to stay afloat, I'm trying to build a cruise ship

I spent a half a decade working on the blueprint

Ay boy we bout to hit the pot of gold

[Ponte]

Gotta go get it that the reflex

I know you can tell the winners by how we flex

I ain't playing with theses niggas ain't no recess

Next time I look around nigga way up, way up, way up, way up

[Refrão]

Only bad bitches round here

I swear it's only bad bitches round here

I mean it's only real niggas round here

You know it's only real niggas round here

[Terceira Parte]

Hey, letting me get too fucking drunk nigga

High, we getting too fucking high to let me

Just keep true, share one with you

Blend, that liquor put inside of what I made me

High, been moving too fast I need to slow down

Said, too many things that I shouldn't have said

Hey, just point out anywhere you want to go now

Now, I swear these niggas don't know what it takes

[Refrão]

Only bad bitches round here

I swear it's only bad bitches round here

I mean it's only real niggas round here

You know it's only real niggas round here
