

Sam Smith - Drowning Shadows

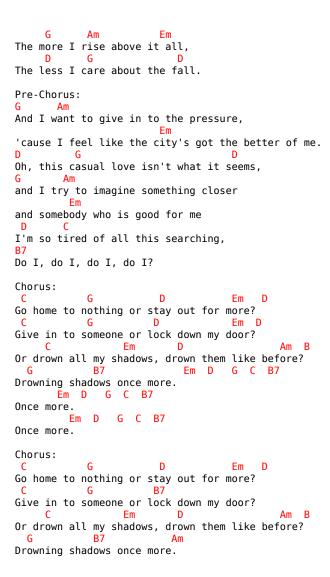

```
Intro: Em D G C B7
        Am
Running around chasing hearts,
chasing bodies to fix the parts.
I don't know how I reached this place,
 D G
so far from heaven, so far from grace.
Pre-Chorus:
And I want to give in to the pressure,
                      Em
'cause I feel like the city's got the better of me.
Oh, this casual love isn't what it seems,
G Am
and I try to imagine something closer
and somebody who is good for me
I'm so tired of all this searching,
Do I, do I, do I, do I?
                      D
Go home to nothing or stay out for more? C G D Em D
Give in to someone or lock down my door?

C

Em

D
Or drown all my shadows, drown them like before?

G B7 Em D G C B7
Drowning shadows once more.
            Am
The more I drink, the more I drown,
If I'm not thinking, I won't lay down.
