```
               Am
I never feel like this
C                      Am
I'm used to emptiness in my heart
        G
And in my arms
Am
You're not what I'm used to
C                                Am
You keep me guessing with things that you do
   G
I hope that they're true
```

[Pré-Refrão]

```
        F
'Cause I'm never gonna heal my past
   C
If I run every time it starts
F                     C
So I need to know if I'm in this alone
```

[Refrão]

```
        F
Come on baby, say it first
          C
I need to hear you say those words
                        Em                   G
If I'm all that you desire, I promise there'll be fire
                   F
I need to hear you say it first
              C
Come on baby, do your worst
                    Em
I know you'll take me higher
              G
So come on darling
Am
If you love me, say it first
Am
Say it, say it, say it
C
Won't you say it to me?
Am
Say it, say it, say it
C
Won't you say it to me?
```

[Segunda Parte]

```
Am
I know you're right for me
C                                     Am
But I'm waiting for everything in your world
      G
To align with my world
    Am
I think of you while I sleep
   C                          Am
I dream of what we could be if we grow
              G
Together unfold
```

[Pré-Refrão]

```
        F
'Cause I'm never gonna heal my past
   C
```

If I run every time it starts
      F                     C
So I need to know if I'm in this alone

So come on darling
