

# Sanctus Real - 'Til I Got To Know You

tom:

I tried perfecting myself  
 Would you love me more without my mistakes?  
 I tried not to ask for your help  
 'Cause I didn't wanna scare you away

Yeah I was always worried I was gonna let you down  
 Oh it felt like I was standing in between the lost and found

'Til I got to know you  
 You  
 I was out of place 'til you found a way to break through  
 It's true  
 I was just a sceptic  
 'Til I got to know you  
 You-

And it's hard accepting your breaks  
 In a world where nothing's free  
 For so long I was afraid  
 That you'd only see the worst in me

Yeah I was always worried you were gonna figure out

That I wasn't what you wanted, wasn't worth being around

'Til I got to know you  
 You  
 I was out of place 'til you found a way to break through  
 It's true  
 I was just a sceptic  
 'Til I got to know you  
 You

And you have always been on my side  
 I finally see it  
 It took so long to believe it  
 'Cause I was always worried I was gonna let you down  
 'Til I got to know you  
 Ooh  
 'Til I got to know you, you, you

'Til I got to know you  
 You  
 I was out of place 'til you found a way to break through  
 It's true  
 I was just a sceptic  
 'Til I got to know you

[Final]
