```
                  tom:
                   Am
        Am    F    C              G    G
Some days I really wanna hate you
Am      F    C                   G    G
'Cause you always know just what to say
Am   F    C               G    G
By now I know the words to break you
Am   F                    C  G   G
And you know what breaks me too

      Am           F
When things get heated
C                  G    G
We say things we don't mean then
Am       F              C  G   G
Though we know they ain't true
Am       F
Say you're leaving
C                G    G
Get careless with our feelings
Am        F           C  G
What's the worst we can do?

       Am           F          C           G  G
I didn't tell you all my secrets just to pull my heart out
         Am        F          C          G  G
I didn't take you to my family just to show you the house
         Am       F            C         G  G
I didn't work this hard to get this far then leave it so soon
         Am         F         C  G
I didn't love to lose somebody like you

(Love to lose somebody like you)

Am   F    C              G    G
Some nights we're closer than ever
Am   F    C              G    G
Sometimes we're running out of space
Am      F    C            G    G
When we're high it can't get any better
Am           F        C  G   G
Until we come down again

Am           F
Things get heated
C                  G    G
We say things we don't mean then
Am       F              C  G   G

Somebody like you
