

# Sasha Sloan - Someone You Hate

tom:

D

Told your mama I'd take care of you

Gbm

Loaded up the car

G

Drove into the dark

Billboard signs and skylines painted blue

Gbm

We made it home

G

But I felt alone

D

We were growing, growing apart

Bm

And I knew I had to break your heart

Gbm

So off I went

G

Haven't seen you since

I went from

Someone you held, you held when you were lonely

Someone you called, you called your one and only

I threw it all away

G

I went from someone you love

To someone you hate

Summer nights w're feeling kinda strange

Gbm

Sleeping back to back

G

I knew we'd never last

D

We were growing, growing apart

Bm

And I knew I had to break your heart

Gbm

So off I went

G

Haven't seen you since

I went from

Someone you held, you held when you were lonely

Someone you called, you called your one and only

I threw it all away

I went from someone you love

To someone you hate

I know we talked, we talked about forever

I know you thought, thought we'd end up together

I threw it all away

I went from someone you love

To someone you hate

D Bm Gbm G

Told your mama I'd take care of you

They say people change

Well, I guess it's true

I went from

Someone you held, you held when you were lonely

Someone you called, you called your one and only

I threw it all away

I went from someone you love

To someone you hate

I know we talked, we talked about forever

I know you thought, thought we'd end up together

I threw it all away

I went from someone you love

To someone you hate
