Satanic Surfers - Whatever

Tom: G

    Intro (x3)

Verso 1 (x4)

Refrão (x2)

Solo (x2)

```
   E                 G              C
D  B
I have my opinions and I try to stick to them, call me
childishif you want
   E                 G              C           D
B
But I guess the concept of that depends on who sets the norm
   E                 G                        C
D  B
And if submitting to the expectations of our surrounding means
growing up
   E              G          C        D  B
I'll try wholeheartedly to refuse            and I hope
you're wrong,
```

```
    C     B     A         E
you say I'm acting like a kid
C     B     A       E         C
and one day I'll grow out of it
G
```

[solo]

```
        G
E   D        C
There's clearly a difference on what we define as significant
matters
   C                                      E                 D
But isn't it funny how everything that's important to me is
trivial to you?
   G                                                        E
D    C            E            D
And it's hard not to notice when you express yourself so
explicitly with harsh words and pleasantries to ridicule me
   G                                                        E
D    C
(Harsh words) Harsh words (Harsh words)
    C                            E                 D
So many harsh words
```

repete intro primeiro verso refrão

```
G                     E       D        C
You can say whatever you might have to say 'bout me
   G                E          D          C
But that doesn't mean that I have got to give a shit
```
