

Scatolove - Surfing The Clouds

Tom: C

I never felt so calm
 I should have exploded by now
 If you didn't come along
 With all your kindness and sweetness my love

I never felt so free
 I should have been imprisoned by fear
 If you didn't come along
 With all your kindness and sweetness my love

My love, my love, my love, yeah

Am
 We've got to stay, got to stay, got to stay in the light
G
 Avoiding demons, demons, demons at night **F**

We are hitting it right
E
 Surfing the clouds

Am
 We've got to stay, got to stay, got to stay in the light
G
 Avoiding demons, demons, demons at night **F**

We are hitting it right
E
 Surfing the clouds

We are laying on the couch and if you'd
 Hadn't breached in this life it can't be built
 Sharing hearts, and sharing minds
 With all your kindness and sweetness my love

My love, my love, my love, yeah

Am
 We've got to stay, got to stay, got to stay in the light
G
 Avoiding demons, demons, demons at night **F**

We are hitting it right
E
 Surfing the clouds
