

Schmoyoho - Just A Little While

```
Tom: F
If you were me
And I was you
         Gm
I'd be flirtatious
To see what you would do
After all
I'm too reserved
And fail to act
Til I observe
I'll make you mine in just a little while
        Gm
I'll take my time--it's just a little while
        Dm
Til every sign points back to me
       G Bb
And I can make a move
     Dm
Friday night
I walked you home
And said you didn't
Want to be alone
 Dm
I replied
That's good to know
       Gm
It's nice to see you
I've got to go
I'll make you mine in just a little while
          Gm
I'll take my time--it's just a little while
        Dm
Til every sign points back to me
        G Bb
And I can make a move
              Bb C Dm Am G
There's no way I'll loooooooose
```

```
Cuz when you look me in the eye
You're all aglow
It's just as though
You've been hiding something behind that innocent smile
That makes 2 of us
When the time's exactly right
        Gm
I'll let you know
You're not alone
       Dm
Unless it seems I've misinterpreted
   Fb
What I thought to be reciprocal
and start to think
If you were you
And I was me
My plan of action
Would be to wait and see
     Dm Am
So I'll be somebody else
         Gm
Unless you'd rather me be myself (in which case)
I'll make you mine in just a little while
         Gm
I'll take my time--it's just a little while
       Dm
Til every sign points back to me
       G Bb
And I can make a move
I'll make you mine in just a little while
     Gm
I'll take my time--it's just a little while
       Dm
Til every sign points back to me G Bb
And I can make a move
      G Bb
And I can make a move
       G
And I can make a move
 Bbm F
