

Scorpions - Dreamers

Tom: A

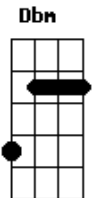

There's a place I know so well
 Behind closed eyes, there's a pearl inside a shell
 From time to time, I come to see
 If this world still has a place for me
 When I put my head to sleep
 Take the rest my body needs
 That's the time my mind is up and away
 We are dreamers, all of our lives
 We are dreamers, your dream will be mine
 Forever, dream on dreamer
 It doesn't matter where you're from
 The door is open all the time for everyone
 There's a place I know so well
 Will I find you, only time will tell
 Well it's been a long, long time
 Since I've seen that state of mind
 Right now my friend, I'm up and away

We are dreamers, all of our lives
 We are dreamers, your dream will be mine
 Forever, dream on dreamer
 We are dreamers, that's what we are
 We are dreamers always light years apart
 Forever, dream on dreamer
 solo(Dbm B A Abm Gb)
 When I put my head to sleep
 Take the rest my body needs
 That's the time my mind is up and away
 We are dreamers, all of our lives
 We are dreamers, your dream will be mine
 Forever, dream on dreamer
 We are dreamers, that's what we are
 We are dreamers always light years apart
 Forever, dream on dreamer
 There's a place I know so well
 Dream on dreamer
