

Scorpions - Sly

Tom: E

(intro) Dbm A B B (4x) B

She was born with a song in the air
 In the summer of 85
 The clouds just went and the day became so bright

A child of love angel like
 With the most beautiful smile
 Growing up to be the sunshine of my life

Come talk to me
 Don?t run away
 Don?t let the distance grow

The door?s wide open
 Don?t ever think
 There is no way home

Sly come home tonight
 The world is so bad you?re drive 'em all mad

With your smile
 Sly my joy and pride
 When the runaway train took you away
 A part of me died

(bridge) Dbm A B B (4x) B

The years went by like the summer of love
 So much changed in our lives

They?re too may scars deep under my skin

Love turned to hate and hate to love
 Let?s start all over again
 And now I wonder what life will bring

Just let us laugh
 The tears away
 No more hard feelings no

Cause after all
 You?re my flesh and blood
 I don?t want you to fall

Sly come home tonight
 The world is so bad you?re drive 'em all mad

With your smile
 Sly come home alive
 When the runaway train took you away
 A part of me died

(bridge) Dbm A B B (4x) B

Sly come home tonight
 The world is so bad you?re drive 'em all mad

With your smile
 Sly my joy and pride
 When the runaway train took you away
 A part of me died

(final 4x) Dbm A B B
