

Scorpions - Through My Eyes

```
Intro: Em C D
Leaving throught the back door
Freezing in the cold
Communication breakdown
Emotional overload
Been throught a wall of fire
                                                               D Em C D
Now I fell like, the ashes glow.....(ashes glow)
Cars passing on the freeway
My mind is on the run
I keep runnig from my shadow
I'm not the only one
Somewhere in the distance
Someone's taking flight
Destination unknown
                    С
Just fade into the light
There's so much said and done
But after all
The time has come, to leave it all
Behind
If you could see it throught my eyes
You'd know I tried to change it all
I´ve been trying all my life % \frac{1}{2}\left( \frac{1}{2}\right) =\frac{1}{2}\left( \frac{1}{2}\right) +\frac{1}{2}\left( \frac{1}{2}\right
To stand up every time I fall
                                                                   D
If you could see it through my eyes
Volta à Intro: Em C D
I fell sadness up my spine
The future on my hands
I'm standing here alone
With open arms again
```
