

Scorpions - Woman

Tom: E

Woman world You can change my

Woman World You can Change My

Versos 1 e 2 :

1. I'm chained to the fears inside these walls
2. I see shadows coming through the walls

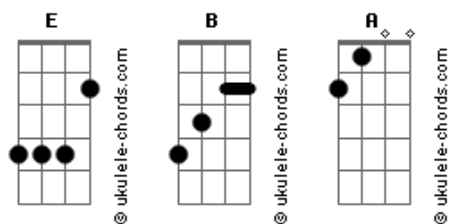

The silence talks loud about the things I recall
I hear voices but noone's talking at all

Through the bricks in the window, I scream at the world
I can feel the madness crawling up my spine

But when noone is listening it's hard to be heard
Reaching out To grab your mind

Woman world You can change my
