

Scott Stapp - Only One

Tom: B

(com acordes na forma de A)

Capostrate na 2ª casa

Intro: A

You can go, you can leave this town

Forget about the people and the places

And the faces that have let you down

You can hide, you can change your name

But the fear will always find you

If it's coming from inside you

So you've gotta change

Ponte:

So if it's the same to you

You could stay with me

I could take you from your nightmares

And put you inside your dreams

And you would see

I'm never gonna leave you

Refrão:

Even when you feel so low like you might let go

I will be the first hand reaching out

I will be the last one giving up on you

Even when you feel your breath fading from your lungs

I will be the first hand reaching out

I will be the first, last, first, last and only one

If you leave, tell me where you'd go?

Would you lock yourself inside a place

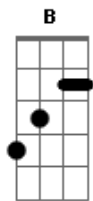

So no one had the chance to face you on your own

Cuz when we fall down, we can stay down

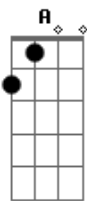

But the freedom that we wanna find

Is only found when we're off the ground
