

## **Seafret - Atlantis**

```
Tom: B
                                                               Maybe I'm not built for love
                                                               If I knew that I could reach you
 (com acordes na forma de G )
Capostraste na 4ª casa
                                                                        Em D
Intro: C D Em C Em D
                                                               I would gooo-oooo
Primeira parte:
                                                               Pré-Refrão:
                                                               It's in my heart and in my head
The birds have left their trees
The light pours onto me
                                                               You can't take back the things you said
I can feel you lying there
                                                               So high above
                                                               "I feel it coming down", she said
All on your own
We got here the hard way
                                                               In my heart and in my head
          D
All those words that we exchanged
                                                               Tell my why this has to end
Is it any wonder things get brooooooke
                                                               Oh, no
Pré-Refrão:
                                                               Oh, nooooooo
                                                               Refrão:
'Cause in my heart and in my head
I've never taken back the things I send
                                                               I can't save us
                                                               My Atlantis, we fall
So high above
"I feel it coming down", she said
                                                               We built this town on shaky ground
In my heart and in my head
                                                               I can't save us
                                                               My Atlantis, oh, no
Tell my why this has to end
Oh, no
                                                               We build it up to pull it down
Oh, noooooooo
                                                               And we built it up
Refrão:
                                                               And we built it up
                                                               And we built it up to pull it down
I can't save us
My Atlantis, we fall
                                                               And we built it up
We built this town on shaky ground
                                                               And we built it up
I can't save us
                                                               And we built it up to pull it down
My Atlantis, oh, no
                                                               Refrão:
We build it up to pull it down
Segunda parte:
                                                               I can't save us
                                                               My Atlantis, we fall
Now all the birds have fled
                                                               We built this town on shaky ground
The hurt just leaves me scared
                                                               I can't save us
Losing everything I've ever known
                                                               My Atlantis, oh, no
                                                                                             C Em C Em D C
It's all become too much
                                                               We build it op to pull it down
```
