

# Seafret - Blank You Out

Tom: E  
Intro: E

Someone to life like the magazines ,Champagne popping right in limousines

It's never wrong to give it a try, But you can't have it all at the same time

I was young when I realised, Life would be easier without any ties

We are left to lose sometimes, There's nothing else to do but get high Get high

Once you feel it, You need nothing,

Feel my heart care, There must be something else

I can feel it, You keep me watching You keep me watching, now

I wish I was with you now, And every time the sun goes down

'Gotta find a way somehow To blank you out, blank you out

It's far too late to love again, It's hard to take and to forget

'Gotta find a way somehow, To blank you out, blank you out

( E )

At the start, I was so eager to please, Fall in love before you know what it means

So many others leave it behind, But I never get used to goodbyes

It's been so long since I looked in her eyes, I lost the pictures but they stuck in my mind

And I never rehearse those lines, Yeah, I still put her first every time

I hear the thunder, feel the cold wind blow, It makes me wonder if you're all alone

So many answers we can never know, Oh, I'm not ready; sometimes it scares me

I wish I was with you now, And every time the sun goes down

'Gotta find a way somehow, To blank you out, blank you out

It's far too late to love again, It's hard to take and to forget

'Gotta find a way somehow, To blank you out, blank you out

Once you feel it, You need nothing  
Feel my heart care, There must be something else
