

## **Seafret - To The Sea**

C F
A twist, a tale, a rip through my sail

C F
And we're made to watch the walls fall down

C F
'Cause goodbye's too strong, too strong a word

When I'm weak from everything that I'm told

Am F G
And I'm weak from everything that I'm told

Am F G
And I'm weak from all the things that I know

Am F C G
Do you think of me when you look to the sea?

I know it's hard to grow when you're pushed to your knees

Am F C G
Darling, we will never break

C A sound, a light that rips through the night, now too far away

But when I follow my heart, it leads me to you

When I'm weak from everything that I'm told
