

# Sean Kingston - Beautiful Girl

Tom: **A**

**A**  
You're way too beautiful girl  
**Gbm**  
That's why it'll never work  
**D** **E7**  
You'll have me suicidal, suicidal  
**A**  
When you say it's over  
**A**  
Damn all these beautiful girls  
**Gbm**  
They only wanna do your dirt  
**D** **E7**  
They'll have you suicidal, suicidal  
**A**  
When they say it's over

Verse 1:

**A**  
See it started at the park  
Used to chill at the dark  
**Gbm**  
Oh when you took my heart  
That's when we fell apart  
**D**  
Coz we both thought  
**E7** **A**  
That love lasts forever (lasts forever)  
**A**  
They say we're too young  
To get ourselves sprung  
**Gbm**  
Oh we didn't care  
We made it very clear  
**D**  
And they also said  
**E7** **A**  
That we couldn't last together (last together)

**A**  
See it's very define, girl  
One of a kind  
**Gbm**  
But you mush up my mind  
You walk to get declined  
**D**  
Oh Lord...  
**E7** **A**  
My baby is driving me crazy

(Repeat Chorus)

Verse 2:

**A**  
It was back in 'nine nine  
Watchin' movies all the time  
**Gbm**  
Oh when I went away  
For doin' my first crime  
**D**  
And I never thought  
**E7** **A**  
That we was gonna see each other (see each other)  
**A**  
And then I came out  
Mami moved me down South  
**Gbm**  
Oh I'm with my girl  
Who I thought was my world  
**D**  
It came out to be  
**E7** **A**  
That she wasn't the girl for me (girl for me)

(Repeat Refrain and Chorus)

Verse 3:

**A**  
Now we're fussin'  
And now we're fightin'  
**Gbm**  
Please tell me why  
I'm feelin' slightin'  
**D**  
And I don't know  
**E7** **A**  
How to make it better (make it better)  
**A**  
You're datin' other guys  
You're tellin' me lies  
**Gbm**  
Oh I can't believe  
What I'm seein' with my eyes  
**D**  
I'm losin' my mind  
**E7** **A**  
And I don't think it's clever (think it's clever)

**A**  
You're way too beautiful girl  
**Gbm**  
That's why it'll never work  
**D** **E7** **A**  
You'll have me suicidal, suicidal, suicidal...
