**D**  
Well I can't stand to look at you now  
This revelation's out of my hands **G F G F**  
**D**  
Still I can't bear the thought of you now  
This complication's leaving me scared **G F G F**  
**D**  
Stay when you think you want me  
Pray when you need advice  
Hey keep your sickness off me  
**G F G F**  
Trying to get through  
**D**  
Blame all your weakness on me  
Shame that I'm so contrue  
Hey keep your fingers off me  
**G F G F**  
Why can't I get through  
**F G**  
You think you have the best of intentions  
**F G F G**  
I cannot shake the taste of blood in my mouth

Refrão:

**D**  
I keep on thinking that it's  
All done and all over now  
**F G**  
You keep on thinking you can save me save me  
**D**  
My ship is sinking but it's  
All good and I can go down  
**F G**  
You've got me thinking that the party's all over

**D**  
Well I can't stand to be with myself  
**G F G F**  
This liberation's seemingly rare  
**D**  
And I can't stand the taste of your mouth  
**G F G F**  
This sublimation's out of my hands

**D**  
You stay 'cause you think you want me  
Pray when you need advice  
Hey keep your sickness off me  
**G F G F**

I'm trying to get through  
**D**  
Shame you could take this from me  
Bane on an empty mind  
Hey keep your fingers off me  
**G F G F**  
why can't I get through

Refrão:

**D**  
I keep on thinking that it's  
All done and all over now  
**F G**  
You keep on thinking you can save me save me  
**D**  
My ship is sinking but it's  
All good and I can go down  
**F G**  
You've got me thinking that the party's all over

Solo: ( **D G F G F** )

**D**  
Lay down just stay down  
**G F G F**  
Lay down because I'm trying to get through

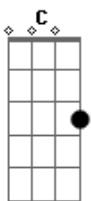

**D**  
Say what you want but you're not gonna win this time  
Take what you want but just leave me alive  
Say what you want but you're not gonna win this time  
**G F G F**  
Take what you want but just leave me alive

Refrão:

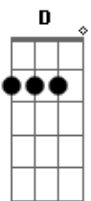

**D**  
I keep on thinking that it's  
All done and all over now  
**F G**  
You keep on thinking you can save me save me  
**D**  
My ship is sinking but it's  
All good and I can go down  
**F G**  
You've got me thinking that the party's all over

Lay down just stay down  
**D C**  
Lay down  
**G F G F**  
Because the party's all over  
**D C**  
Lay down  
**D C**  
just stay down  
**D C**  
Lay down  
**G F G F**  
Because I'm trying to get through
