

## Seether - Don't Believe

```
'cause they'll feel you so much more Eb Bb
Intro: .:
                                                          Deep inside the venom is burning
C D Bb C (2x) FC D Bb C (Nesta terceira vez toque mais rápido os acordes D Love her
                                                          (C Eb Bb D Bb C G Eb Bb D Bb C G Eb Bb D Bb ...)
Verse:
C Eb
         Bb
Your heart is carved in stone
 Eb Bb C
                                                          Other:
And apathy flows in your veins
 Eb Bb C
                                                          You can't take
When flesh falls from the bone
                                                              Eb Bb
                                                          I'll give in
 Eb Bb ( C repete )
You've taken all you can take (you can take x3)
                                                          You can't break
                                                               Eb Bb
Chorus:
C Eb Bb
Don't believe in anyone
                                                          What's broken
                                                          Your mistake
'cause they'll feel you so much more
                                                              Eb Bb
                                                          I'll rest my body in the ground
                   Bb
Deep inside the venom is burning
                                                          Chorus:
Love her
                                                          C Fb
                                                          Don't believe in anyone
Solo 1:
(C Eb Bb C F) (2x)
                                                           'cause they'll feel you so much more
                                                          Deep inside the venom is burning
Verse:
           Bb
C Fb
When stink fades into smell
                                                          Love her
   Eb Bb
                                                               Eb
The liquor has washed you away
                                                          Don't believe in anyone
 Eb Bb
                                                                    F
When face cracks into smile

Eb Bb ( C repete )
                                                           'cause the day that you were born
                                                            Eb Bb F
                                                          Can't deny the enemy's taken over
You've taken all you can take (you can take x3)
                                                          Solo 1:
(C Eb Bb C F ) (4x)
Don't believe in anyone
```
