

Seether - Immortality Solo

Tom: **F** (first solo)

Album: One Cold Night
Tuning: half step down

I believe I got this about 85% correct. I really just tried to lay the ground work so someone who knows what their doing can tab it 100%. So this many not be totally correct it should get you pretty close. The video that comes with the cd helped a lot.

Key:
b= bend
bv= the only way to describe is bend and vibrate at same time
h= hammer on
p= pull off
/= slide up neck
\= slide down neck
//= rake the neck

the second solo is hard for me to really hear but this should get you close
