tom:

Intro: C G F Cadd9 G  
C G F Cadd9 G

[Primeira Parte]

We had a kind of love  
I thought that it would never end  
Oh my lover, oh my other, oh my friend  
We talked around in circles and  
We talked around and then  
I loved you to the moon and back again  
You gave everything this golden glow  
Now turn off all the stars, 'cause this I know  
That it hurts like so  
To let somebody go

[Segunda Parte]

All the storms we weathered  
Everything that we went through  
Now without you, what on earth am I to do?  
When I called the mathematicians and  
I asked them to explain  
They said love is only equal to the pain  
And when everything was going wrong

You could turn my sorrow into song

Oh it hurts like so  
To let somebody go  
To let somebody go

( C G F Cadd9 G )  
( C G F Cadd9 G )

Oh, when you love somebody

When you love somebody

Got to let somebody know  
Oh, when you love somebody

When you love somebody

Got to let somebody know  
So

When you love somebody  
When you love somebody  
Then it hurts like so

To let somebody go  
It hurts like so  
To let somebody go

[Final]

But you're still with me now, I know  
( C G F Cadd9 G )

But you're still with me now, I know
