Lyrics:

Over Mountains  
 That's where my love lives  
 A long, long ride to sunland  
 Here where I did this

Across the great divide  
 Alone (wondering open afraid and)  
 Arriving alive unknown (unknown unwise and unaided)

If I could I might  
 Send my love on a plane ride  
 A black cross high in a blue sky  
 A green cross gliding on a million pines

NOTES:

I'm not positive on the verse, but the rest is probably right. (send me any corrections)  
 Any ideas on the solo?  
 Any one want to help tab out the whole album?
